

EUROFLOW TOTAL SOLUTIONS

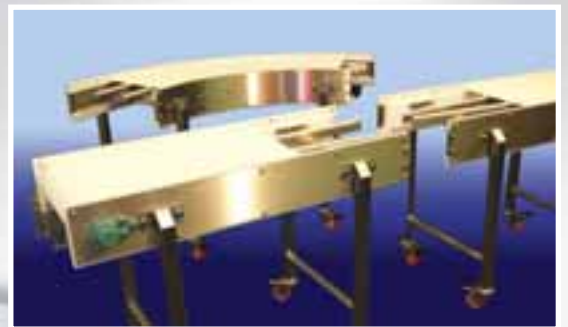

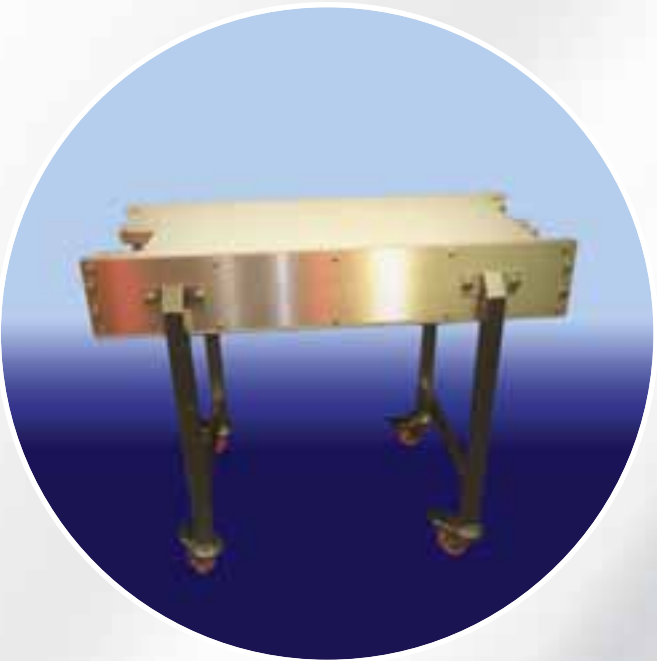

"EURO" RANGE OF MODULAR CONVEYORS

As a result of continuous development we offer a fully modular conveyor system designed to be assembled on site within minutes. This system gives the ultimate flexibility for changing production layouts. Any combination of sections can be assembled to suit your current layout, disassembled and reassembled in minutes due to its truly modular concept. When not in use the whole system can be easily stored into a very compact space.

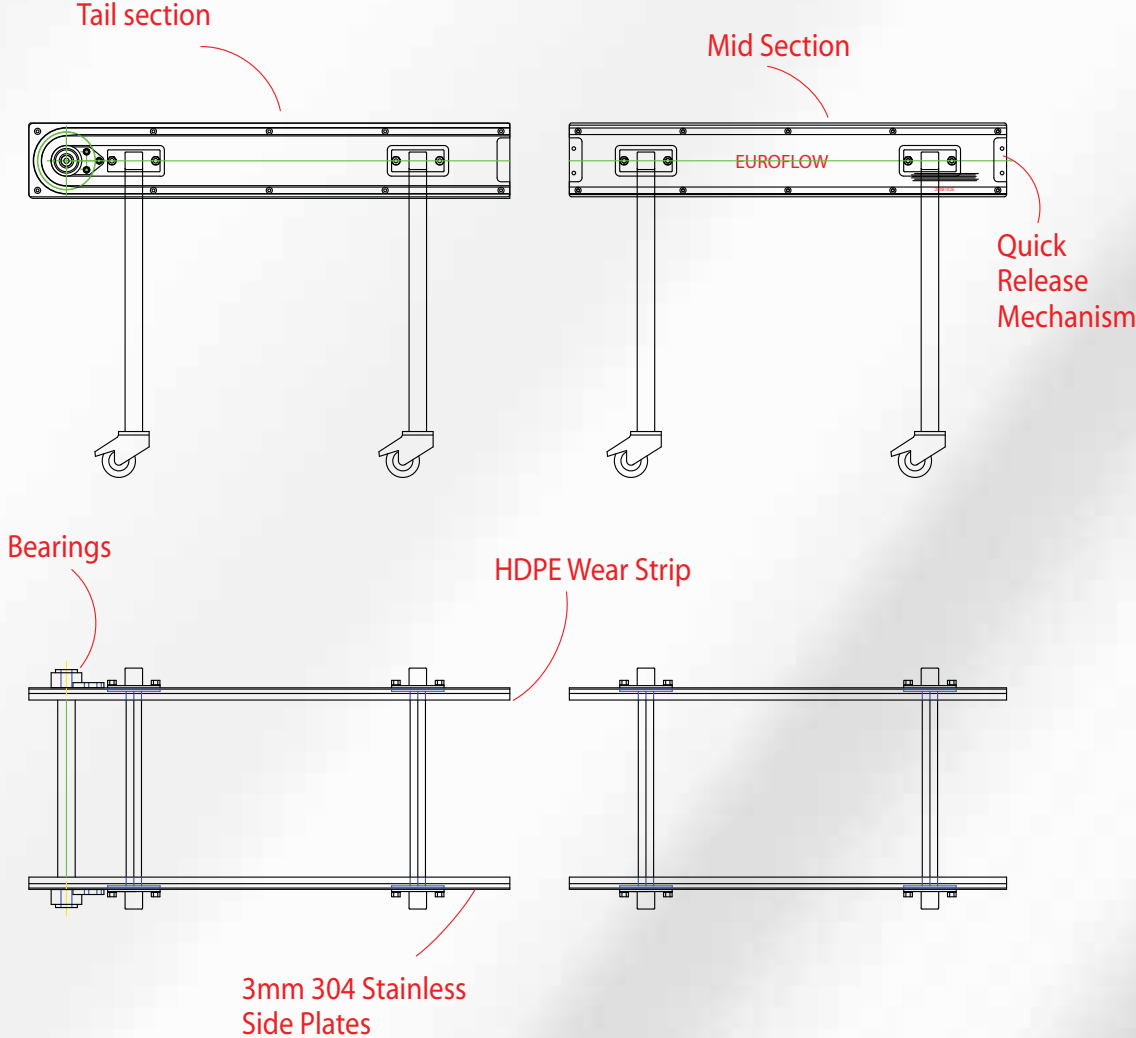

This system can be supplied in a range of standard widths ranging from 200mm wide.

There is a "Euro" range of modular conveyor system to suit any application.
